Fans of the sharp-tongued Golden Girls should start packing their bags for New York City: A cafe dedicated entirely to the long-running, much-loved TV show is set to open in Manhattan's Washington Heights. Though an official open date hasn't been confirmed, owner Michael LaRue—a close friend of the late actress Rue McClanahan, who played Blanche Devereaux—has been teasing pictures of the cafe's near-complete interiors on Facebook, and it's like a salon of sass: framed photos of the fabulous ladies cover one wall, a feather boa hangs from the ceiling, and sequined costumes fill corners next to (more) oversized photos.DNAInfo reported the plans for a themed cafe, dubbed Rue La Rue Café back in June, noting that none other than Betty White, who played Rose Nylund, would attend the ribbon-cutting ceremony. "I believe I can turn this place into a mini-tourist [hub] in Washington Heights," LaRue told the local news site, describing McClanahan as his "best friend." Judging by the photos, the place will be brimming with memorabilia—which LaRue reportedly inherited from McClanahan—as well as mannequins dressed in costumes worn by the actress, and, according to one post, a shimmering "gold mica chip and glitter floor" that channels the "spirit of Blanche." In terms of food, the menu will include salads, sandwiches, soups, and, of course, the Golden Girls' preferred choice of dessert, cheesecake (no fewer than 100 cheesecakes were eaten on the show). Another dessert that has proven particularly eye-catching is the "Betty White Cake," which, judging by the photo, involves a lot of coconut. Just one glimpse of the memorabilia adorned walls. Courtesy Rue La RueThis isn't the first time New York has honored McClanahan and her fellow co-stars: At the Big Gay Ice Cream shop in the East Village, patrons can order a Rue McClanahan ice cream sandwich (not to mention a Bea Arthur ice cream), and The Bea Arthur Residence, a homeless shelter for LGBTQ youth, is due to open later this year following a large donation from Arthur's estate.Once open, fans can stop by the cafe Monday to Friday, 6 a.m.–10 p.m., and weekends 6 a.m.–11 p.m. There's talks of live music, too, with LaRue predicting performances on McClanahan's piano (frequent renditions of Thank You for Being a Friend, we hope). Paying homage to a TV show that ended 25 years ago will likely appeal to a slightly different demographic than the crowds headed to a Harry Potter-themed restaurant in Williamsburg—making it perfect for both Golden Girls loyalists and those who couldn't get a table at the city's new 35-and-over bar. The city government of New York has several different departments focusing on different legal and social welfare subjects, and the Department of Buildings is one of these city government subgroups. But what does it do, and who needs to know about it? Learn more with this simple guide.Basic Info About the NYC Department of BuildingsAs the most populated city in the country, New York City has no shortage of buildings. Whether it's a historic brownstone or a brand-new high rise, every building in the city must adhere to safety standards and other regulations set by the Department of Buildings. Headed by a commissioner, the NYC building dept oversees the "safe and lawful use" of the city's buildings, including those under construction. This means that nearly everyone in the city, from renters to building owners and construction workers, has some connection to the Department of Buildings. Things like city construction codes and zoning rules, state building laws and even landlord-tenant laws can fall under the Department of Buildings' purview. The department's reach covers all five boroughs of NYC.NYC Renters and the Department of BuildingsNew York City has a range of comprehensive laws that protect tenant rights and define proper behavior for landlords. Anyone who rents an apartment or other space in NYC, including an entire building, can turn to the Department of Buildings for help or information in a situation where their landlord is behaving inappropriately. Landlords in NYC aren't allowed to harass their tenants, for example, and the Department of Buildings' website provides helpful information on what legally constitutes harassment. The Department of Buildings includes the Office of the Tenant Advocate, which focuses on providing support for tenants who live in an apartment building in which construction is taking place. Renters in New York who are dealing with other issues may be able to find other relevant city government departments via the Department of Buildings' website.Online Department of Buildings ToolsThe NYC Department of Buildings website has a number of helpful tools accessible to the general public and relevant primarily for people who work in building-related fields. These tools include a Building Information System query tool that allows people to look up specific buildings and find a record of things like code violations and inspections relating to that property. The website also has a list of city construction codes and other building-related codes that anyone can look through.Public EventsIn addition to providing online resources, the Department of Buildings also hosts some in-person events to support its work. These include a regular public meeting available to homeowners, tenants, building managers and business owners known as Homeowners Night. In spite of the name, anyone with a question relevant to the Department of Buildings can attend and ask questions of department staff. These meetings are held in local borough offices across the city.Other ActivitiesThe Department of Buildings is responsible for a range of other activities, including but not limited to safety training for the construction industry and an annual construction industry conference focused on safety. Anyone looking for permits to do construction work on an NYC office building or dwelling will need to work through the Department of Buildings as well.
